CONSULTING

## Senior Fire Engineer

Whitecode Consulting Ltd has grown to become a leading Building Services Consultancy. We offer our clients a complete mechanical and electrical design for residential and commercial developments throughout the UK.

We are currently looking to recruit an experienced, highly motivated Senior Fire Engineer to build and lead a new Fire Engineering division within the Company. Within this position there will be a great opportunity for future promotion of becoming a director within the business.

The hours of work are Monday – Friday, 9am – 5.30pm. This position is permanent and offers a competitive salary (DOE) and a discretionary bonus.

You will be providing fire consultancy services in accordance with the Building Regulations, Approved Documents and professional standards liaising with clients, professional advisors, the general public etc. You may also be required to coach and mentor more junior employees as a part of our structured training programme.

The successful candidate will have a fire engineering or similar degree, and will be a member of the Institute of Fire Engineers (IFE) or equivalent. You will have excellent all round up to date knowledge of the Building Regulations and other relevant legislation along with a proven track record in a similar role.

You will have professionalism, excellent communication skills and a desire to develop your career within a successful and supportive company.

### Key Tasks

- Developing fire safety strategies on projects from RIBA Stages 1 to 7 and ensuring projects meet local and international fire safety codes
- Promoting active and passive fire protection system design
- Carry out fire safety calculations and using a range of computer software to analyse, predict and model the spread of fire.
- Carry out fire stopping inspections and surveys
- Incident management & emergency planning.
- Assisting with computational fluid dynamics (CFD) modelling
- Carry out fire risk assessments
